Domani

Domani is a modern and very pleasant rounded model, consisting of straight and bean-shaped modules. By combining them freely you can create a fanciful shape: a sofa, an L-shaped corner sofa, but also a semi-circle, an open circle, a wave or an S-shape. You are only limited by your imagination! This unique feature makes Domani suitable for a wide variety of rooms – from a cosy living room to an exclusive waiting room in a clinic. Because sometimes we expect furniture to help us be very close to someone, and sometimes we can use it together with others to preserve some intimacy. Interesting? Finally, a little hint – this model looks fantastic in boucle fabrics!

What makes the Domani sofa stand out?

The highly-flexible foam improves the durability and elasticity of the seat, preventing deformations.

LUX COMFORT - this type of filling is made of silicone down that retain the characteristics and softness of feathers but eliminate its defects, i.e. unesthetic "flattening" and allergenic properties. This filling ensures the highest comfort of use.

The upholstered back allows you to put it in the middle of the living room.

You can choose the fabric from dedicated series, including easy-to-clean fabrics.

The ergonomic and comfortable design of the backrest and seat perfectly fits the curve of the human body.
